Further, the State will enter into a Project Agreement with FHWA covering the work embraced in said construction contract and will request the maximum federal funds available.

b. Should some unforeseen conditions or circumstances increase the cost of said work required by a change in the extent or scope of the work called for in this agreement, the State shall not be obligated to incur any expenditure in excess of the amount of Local Agency's deposit unless and until so authorized in writing by the Local Agency.

2. Prior to the solicitation of bids, the Local Agency shall deposit with State funds in the amount determined by the State to be necessary to match federal funds in the ratio required. Upon completion of the construction contract, the State shall return to the Local Agency any part of the funds deposited by Local Agency remaining after Local Agency's pro rata share of the cost, as finally fixed and determined by FHWA, has been paid.

3. The Local Agency shall acquire, without cost to the State, the necessary right-of-way and hereby certifies that all necessary rights-of-way have been acquired.

Construction supervision costs not participated in by FHWA shall be borne by the Local Agency. All Construction project change orders are to be approved by the State.

7. Local Agency will complete the project in accordance with approved plans and specifications and the requirements of the relevant State and federal statutes, rules, or regulations. In the event the Local Agency fails to comply with the plans, specifications or any relevant State or federal statutes, rules, or regulations, it shall hold the State harmless from any claims or costs incurred by the State as a result of Local Agency's failure to comply.

8. State employees may perform any inspections of the project or audit any books or records of the Local Agency the State employees deem necessary, in order for the State to satisfy itself that the monies on the project have been spent and the project completed in accordance with the plans and specifications, statutes, rules, and regulations of the State and Federal government.

9. Upon completion of construction, the Local Agency shall provide for, at its own cost and as an annual item in its budget, proper maintenance, including, but not limited to, traffic signals, signs, islands, curbs and markings necessary for the purpose of regulating, warning and guiding traffic.
